

Green and Healthy Schools Academy Programming 2020

Opportunities for Educators:

School Sustainability Culture Program Workshops

These full-day workshops are open to the public with breakfast and lunch provided.

Handprinting: Creating Healthy, High-Performing, and Engaging School Environments Through a Net-Positive Approach

Wednesday, February 19th 8:30-3pm

Creating the Ideal Learning Environment: An Introduction to Biophilic Design & Biomimicry for Educators

Thursday, April 16th 8:30-3pm

Sustainability 101: Components of a Green & Healthy School

Free half or full day professional development workshops for K-12 school staff.

GHSA Teacher Cohorts

K-12 classroom teachers interested in integrating climate change education into their curriculum should join our Project Drawdown or United Nations Sustainable Development Goals cohorts. This paid opportunity has limited openings for Pittsburgh and West Virginia cohorts. [Submit your application here.](#)

GHSA Teacher Cohorts Showcase

Thursday, May 7th 6-8pm

School Sustainability Culture Program Retreats

Join us on multi-day retreats to learn about integrating sustainability into K-12 culture.

School Sustainability Leadership Retreat

March 19-20th, 2020

K-12 superintendents and district administration are invited to explore district-wide school culture and sustainability. Contact Katiel@gbapgh.org for more details.

School Sustainability National Retreat

Summer 2020

All K-12 educators or administration are invited to learn about a school-wide culture for sustainability. [Submit your interest and learn more here.](#)

School Project Technical Assistance

From building efficiency to climate change education, GHSA staff supports school sustainability and facility projects with vendor recommendations, green school resources, and project planning support for all sustainability topics. For more information, contact Katiel@gbapgh.org.

Opportunities for School Building Professionals:

Healthy School Facilities Workshops

These morning workshops are specifically for facilities professionals, breakfast is provided.

Mold, Radon, and Lead in Schools: 1,000 Hours Grant Workshop

Tuesday, March 10th 8-12pm

In partnership with Women for a Healthy Environment, join us to learn more about funding opportunities for lead testing/remediation and radon testing in schools!

Building Benchmarking and Efficiency: Pittsburgh 2030 District Affiliates Program

TBD Spring 2020 8-12pm

Pittsburgh 2030 District Affiliate Program

Schools interested in reducing their energy usage and saving money can join the Pittsburgh 2030 District Affiliate Program. This free program does more than just benchmark buildings—it gives school leaders and facility managers individualized energy reports, access to Bridge to 2030 events for innovative energy saving methods, and free technical assistance. For more information, contact Ellenc@gbapgh.org.

Opportunities for Students:

Emerging Youth Program

The Emerging Youth Program is a free, monthly program for high school students. Students explore the city and see how Pittsburghers are implementing the United Nations Sustainable Development Goals ([UN SDGs](#)) in their work.

[Apply here for next year](#)

For more information on any of these programs, contact Ellenc@gbapgh.org or Katiel@gbapgh.org or visit the [Green and Healthy Schools Academy website](#).
